

Social Media Marketing

Seminar objective

Social media marketing is very complex, but it is now part of the marketing mix of many companies and businesses. Embedding social media into the corporate strategy is therefore one of the main objectives of this seminar. Over two days, you will learn how to develop innovative campaigns specifically for social networks such as Instagram, Facebook and also for video portals, and how to manage and measure these activities. You will also learn which social platforms and communities are relevant for your company or service in order to use them successfully for advertising, sales and PR. For effective and long-term social media marketing (SMM), it is also important to observe the rules of the game - this includes the legal conditions: Copyright, domain law, respect for privacy. You will receive valuable hints and tips on this. The seminar is rounded off with practical examples from B2C and B2B.
